

FLAMCO Metal Drywall Corner Beads (Hot-Dipped Galvanized)

Product Hot Dipped Metal Corner bead

FLAMCO's metal drywall beads provide excellent corrosion protection and mud adhesion. These hot-dipped metal beads are available in a variety of lengths and offer the following benefits:

- Minimum G-40 coating provides superior corrosion protection
- Deep knurling and chemical free coating insures proper mud adhesion
- Available in regular and open angle splay
- Small nose provides a smaller mud gap and is easy to finish

Certification

All Drywall corner beads meet or exceed the following ASTM standards:

- ASTM C1047 Standard Specification for Accessories of Gypsum Wallboard.
- ASTM A653 Standard Specification for Steel Sheet, Zinc-Coated (Galvanized) by the Hot-Dip Process.

Limitations

FLAMCO Metal Corner Beads are Designed for Interior use.

Storage

Store to avoid bending and place in a dry place protected from moisture

Installation

Install in accordance with applicable ASTM standards and use prevailing industry standards.

Made in the U.S.A. All of our drywall products are produced in America. Phone 904 783 8400.
